

Ft. Totten Gate Security to be Reinstated

I am pleased to report that beginning Monday, June 15, 2009, front Gate Security at Ft. Totten will resume. Light duty FDNY personnel will be assigned to guard the entrance. Effective July 1, 2009 money has been restored to the budget which will allow for the reinstatement of full time gate security. Community Board 7Q & 11Q have received correspondence from FDNY's Roger Montesano confirming the restoration of gate security.

A big thank you goes out to the elected officials, civic groups and community leaders who supported the BTCA's efforts to maintain the safety of Fort Totten. We made our voices heard and once again proved that by working together people can make a difference.
