

## **CAGE in Rosedale removes another 127 illegal street signs**

Sunday, July 20, 2008

Hi all!

I know its hot and the last thing on most people's minds is doing some physical work.

However, when you look upon sign removal as a sport or form of exercise, that's a whole different story.

Most communities involved with CAGE have reported much success with either reporting signs to DOS enforcement for fining and removal or just plain taking them down ourselves without waiting.

Well, Friday night we had about 60 posters for some reggae concern plastered all over Rosedale in addition to the usual bandit signs. So Saturday morning, while it was still cool, we went out and removed those 60 and 47 more of other signs. This time we made a big DENT. While Rosedale still struggles to become and stay illegally sign posted free, we will not give up the fight.

**SO this week, I am asking all CAGE affiliates to either report or take down 10 signs in your community. And if you are lucky enough not to have 10 signs, do it on the border of your neighborhood that does. It will help us all out and help to reduce the tide of illegal signage.**

**(Now that would amount to hundreds of signs and really give us a chance to get ahead.)**

**So what are you waiting for ?!**

**Best regards,**

**Fred**
